

# JOIN US FOR THE LUNDIN-SNIDER SEMINAR SERIES

“Mineral Resources and  
Their Implications for Our Society”

## Climate change mitigation and the energy transition

- Why climate change mitigation will rely on raw materials supply?
- What are the mineral requirements for a low CO<sub>2</sub> future?
- What are the implications for the future of mining and mineral extraction?

**December 6th, 2022**  
**4:00 to 5:30 pm**

**Steward Observatory Building**  
**Room N210**  
**933 N. Cherry Avenue**  
**Tucson, AZ 85721**

**Free Refreshments & Snacks**

THE UNIVERSITY OF ARIZONA

School of Mining  
& Mineral Resources

Lowell Institute  
for Mineral Resources

### **Prof. Simon Jowitt**

Associate Professor of Economic Geology at the  
University of Nevada, Las Vegas, Nevada, USA
