Tuesday, Nov. 19th 2024
3:00-5:00pm MST / Arizona

Member/Student mixer at Corbett's
Nov. 19th, 6-9pm – 340 N 6th Avenue Tucson, AZ

corbettstucson.com

All students interested in pursuing careers in the mining and mineral resources industry are invited to participate in a virtual student presentation and networking event hosted by U of A's Geotechnical Center of Excellence. Don't miss out on this fantastic opportunity to kick-start your professional journey. All majors welcome!

Students are invited to prepare one of two types of 10-15 minute presentations:

Inquisitive Minds: focus on your academic or professional interests. This is a great option if you would like the opportunity to connect with GCE stakeholders about your interests and gain insight into different fields of study.

Digging Deeper: focus on a research topic or project you have been involved in. This is an excellent opportunity to demonstrate your existing expertise and your career interests.

Five gift cards are available for top presentations:

- **1st Place:** \$250 + lunch with the President of South32's Hermosa Project, Pat Risner
- **2nd Place (2x):** \$100
- **3rd Place (2x):** \$50

Presentations will be rated by participating GCE Members and Stakeholders. The primary aim of this event is to facilitate connections between students and industry stakeholders within the mining, geotechnical, and geological engineering fields.

RSVP TODAY!

Students do not have to present to attend the event.

THIS EVENT IS SUPPORTED BY THE GCE'S MEMBERSHIP GROUP:
