Email Series

Email 1: Introduction to Hydrology and Atmospheric Sciences

Subject Line: Your Science Journey Begins Here 🍀

Header: Discover Your Passion, Shape the Future

Body Text:

Welcome to the University of Arizona! Whether you're drawn to understanding the forces shaping our weather or solving critical water resource challenges, our top-ranked **Hydrology and Atmospheric Sciences program** is the perfect place to start.

Choose from two emphasis areas:

- Meteorology and Atmospheric Sciences: Explore climate and weather phenomena.
- Environmental Hydrology and Water Resources: Address global water sustainability.

Our innovative curriculum, hands-on learning, and supportive faculty will empower you to make a difference in the world.

Questions? We're here to guide you.

Contact Brittany Ciancarelli today at bciance@arizona.edu or (520) 621 6619.

Email 2: The Benefits of Our Program

Subject Line: Why Choose Hydrology and Atmospheric Sciences?

Header: Hands-On Learning Meets Real-World Impact 🚀

Body Text:

At UA's Hydrology and Atmospheric Sciences program, you'll gain more than a degree—you'll build a future in a high-demand field. Here's what sets us apart:

- Partnership with Industry: Interact with working professionals and facilities.
- **Expert Faculty:** Learn from researchers solving global challenges.
- ✓ Hands-on Research Opportunities: Work on real-world projects.

Our graduates go on to impactful careers in water resource management, weather forecasting, and environmental consulting.

Find the Emphasis That Fits You:

- Meteorology and Atmospheric Sciences
- Environmental Hydrology and Water Resources

Email 3: Take the Next Step

Subject Line: Don't Miss Your Chance to Make an Impact 🍀

Header: Ready to Begin Your Journey?

Body Text:

The University of Arizona is committed to helping you succeed every step of the way. With our **Hydrology and Atmospheric Sciences program**, you'll be part of a supportive community ready to help you thrive.

Your next step is simple:

Contact us for personalized guidance at bciance@arizona.edu or (520) 621 6619.

Explore the curriculum and opportunities for:

- Meteorology and Atmospheric Sciences
- Environmental Hydrology and Water Resources

The future needs scientists and problem solvers like you. Don't wait—secure your spot today!

Subject Line: Discover Your Future in Science: Hydrology & Atmospheric Sciences at UA

Header: Shape the Future of Our Planet

Body Text:

Congratulations on your journey to the University of Arizona! Are you ready to turn your passion for science into a career that makes an impact?

The **Hydrology and Atmospheric Sciences program** offers two exciting pathways for students like you:

1 Meteorology and Atmospheric Sciences Emphasis

Interpret weather and climate phenomena that impact our lives, economy, and ecosystem. Learn more: Explore Meteorology

2 Environmental Hydrology and Water Resources Emphasis

Positively impact society and the environment by protecting and managing precious water resources. Learn more: Explore Environmental Hydrology

With hands-on research opportunities, expert faculty, and real-world applications, you'll be prepared to address challenges in science and sustainability.

Questions? We're here to help!

Contact us at <u>bciance@arizona.edu</u> or (520) 621 6619. Let's start shaping your future today!
